

Garlic Scentry

Harnessing the power of organics to fight insects and repel unwanted yard and garden pests, Garlic Scentry is the chemical free alternative. Garlic Scentry is the all natural, environmentally friendly and humane way to safely repel pests from fruits, vegetables, flowers and grasses. Garlic Scentry is a powerful liquid garlic that has multiple uses around the home and garden. Garlic Scentry is absorbed into the plant and protects it from the root to the flower.

- Totally green, organic, non toxic and safe for use around children, plants and pets
- Garlic odor dissipates quickly and remains effective for 10-14 days
- Taste and Odor repels deer, rabbits and rodents without harm
- Spray on ripened fruit crops to keep away birds. Does not effect the taste of fruit or vegetables
- Travels systemically through the plant for root to flower protection
- Creates a barrier against mosquito, ticks, fleas, ants, Japanese beetles, aphids and cane borers
