## **Liquid vs Granular Ice Melt**

### Benefits of Granular

1. Melts through thick ice
2. Stays active and in granular form longer
3. Less dilution of solution caused by melt water
4. Less environmentally friendly
5. Less pet safe
6. Less friendly to plants
7. Easy to toss and spread
8. More corrosive
9. Use on residual patches after a storm
10. Use after a storm only

### Benefits of Liquid

1. More environmentally friendly
2. Lighter in weight and easy to apply
3. Can be used before, during, or after a storm
4. Less corrosive
5. Safer around plants
6. Safer around pets
7. Has a residual non-stick effect
8. Can reduce the accumulation of snow by up to 2"
9. Subject to dilution of solution caused by melt water
10. Can be used as a pre-treatment
