

CLEAR WAY

Non Chloride

All-purpose liquid deicer

Bare Ground Clear Way Non Chloride Potassium Formate liquid deicer is a non chloride/non conductive deicer. Clear Way does not have the odor associated with acetate products. It is non toxic, non polluting and non-corrosive with the lowest COD and BOD possible to lower waste water impact in all sensitive areas. Entirely environmentally safe and totally safe around pets and plants. Effective freeze point is -63° F and it significantly reduces the freeze point of water making Clear Way an excellent anti-icing solution.

Clear Way

Liquid Potassium Formate

- Potassium Formate (Schools, Railways, Military Bases)
- Contains No Harmful Methanol or Glycols
- Non Toxic, Non Polluting, Non Corrosive
- Excellent for Anti-Icing and Ice Control by
- Reducing the Freeze Point of Water
- Effective Freeze Point -63° F
- Lowest COD/BOD and Fully Biodegradable
